

Switch Labels

When working with switch users at a cause and effect level, it is important that the student understands that by pressing the switch, they are making the effect happen. Labelling the switch with an image which relates to the activity can help with this important element of learning.

Printing the switch labels

Select 'PRINT' from the file menu and print the page which relates to the type and size of switch you are using.

Page 1 - These notes.

Page 2 - Large switches and 'Big Mack' communicators.

Page 3 - Medium (Jelly Bean) switches and 'Little Mack' communicators.

Page 4 - Small (Specs) switches.
